## Education

**Oriental College of Technology, Bhopal**                                        *Oct 2021 – May 2025*
*B.Tech in Computer Science and Engineering (Cyber Security)*
*CGPA: 7.4*

**Jawaharlal Nehru School (S.W.), Bhopal**                                        *Apr 2019 – Mar 2021*
*12th CBSE Board – 85%*
*10th CBSE Board – 81%*

## Experience

**React JS Intern**                                                               *Sept 2024 – Nov 2024*
ABSTINENT RESEARCH AND TECHNOLOGIES                                               *Bhopal*

- Designed and developed responsive websites using React.
- Worked on a live project called Vibe, adding visual workflows using React Flow.
- Created dynamic applications with easy-to-use and customizable features.
- Built responsive React applications with smooth performance and visually appealing user interfaces.
- Collaborated with teammates to improve project performance and maintain scalable code.

## Projects

**Employee Managment System**  *(React, Recoil, Tailwind CSS, Node JS, Express JS, MongoDB)*

- Developed a full-stack Employee Management System using React, Express.js, MongoDB, and RESTful APIs.
- Implemented core modules including employee profiles, attendance tracking, time tracking and leave management workflows.
- Built a responsive, scalable UI with Tailwind CSS, ensuring cross-device compatibility and clean code architecture.

**Chat Application**  *(HTML, CSS, JavaScript, Tailwind, Node JS, Express JS, MongoDB, Passport JS)*

- Engineered scalable backend infrastructure using Node.js and Express.js with MongoDB for efficient data management.
- Implemented user authentication and session management with Passport.js, ensuring secure and personalized chat experiences.
- Developed the frontend using HTML, CSS, and JavaScript, styled with Tailwind CSS to deliver a responsive and visually appealing user interface.

**Recipe App**  *(React, Tailwind CSS, MongoDB)*

- Built a React app for creating and managing recipe cards with image uploads, ingredient tracking, and responsive design.
- Used React hooks and localStorage for dynamic state handling and data persistence without a backend.
- Integrated localStorage for data persistence without a backend.

## Technologies

**Languages:** Java, Javascript, Typescript
**Technologies:** HTML, CSS, Bootstrap, Tailwind, React JS, Node JS, Express JS, MongoDB, React Native
**Tools:** Git, GitHub, VS Code, Vercel, NPM, Vite, Render
